## Risk a Little Money to Make Much

Would you risk \$100 on a chance to make 15,000? It has been done in the last year in Texas, and "What has happened may happen again." We are drilling NOW. Have 80 acres. Favorable reports from two oil

merica's best geologists show surface indications apparently better than Burkhurst. Here stockholders in one company recently got \$15.000 for each \$100 invested, and other companies have paid dividends from 100 per

to 1750 per cent. We are drilling for another Blackburnett Oil Pool, and want a few people who have "red blood" and "back-  
bones" to join us on our guarantee of a square deal and big profits if we hit oil. We don't want the weak or helpless, or those unable

unwilling to take a risk, but if you believe that "The best way to get a chance is TAKE one," if you have the cash and the courage and believe you can't afford NOT to take a chance, then we want you with us. No money, but tear out this ad and mail it with your name and address for free information, including picture of our drilling well, map and reports of geologists. Do it right now before you forget.

# Lungs Weak?

Generous Trial Offer of Europe's  
Remarkable Remedy, SANOSIN, for  
Sufferers From Tuberculosis, Bron-

It works while you sleep.

World's noted medical scientists declare SANSIN the most effective treatment for February ailments yet discovered. Felix Wolf, Chief Physician, Director of the Sanitarium for Rheumatism in Reibsdorf, says he has died of the disease. He says SANSIN has been recommended to him by the German Medical Association, Dr. Essert, Amsterdam, Holland. He declares it a "moral obligation to make SANSIN known to the whole human race." SANSIN is an inhalation treatment—the antiseptic fumes which are being breathed in during the night, causing the sleeping patient to absorb the medicine and thus get the full effect. It is fortunate that American sufferers from rheumatism can use this remarkable home treatment which has met with such phenomenal success in Europe. SANSIN does the work by absorption.
